Web-Based Services

Mi-Archive, Mi-Project and Mi-Share

These services are powered by Citrix Sharefile for secure, fast and simple file Archiving, File Sharing and Project Document Management and Sharing in the Cloud.

Specialty Services

Project Bid Administration

Collect and report information related to plan holders, plan holder activity, deposit check management, document distribution, order history, addenda distribution and document submittal history. All or portions of this information can be made available on the Internet 24/7 via a custom Mi-Project web portal.

Archive Scanning

Create a digital document library by scanning plans, specs, schematics, technical bulletins, photos and other pertinent documents into a digital archive that can be hosted on your network or on the Internet.

ABOUT US

Thank you for taking the time to learn more about us. A&I Reprographics is committed to utilizing technology, innovation and imagination to support each of our customers in a manner specific to their needs. Our goal is to have happy customers.

We know one size does not fit all.

A&I Reprographics believes to best serve our customers we must stay in touch with them. We strive to learn about their businesses and the challenges facing their industries so we can design our services to align with their needs. We possess all of the standardized services but we deploy them in flexible and customized ways.

A&I Reprographics has developed successful business relationships with numerous City, County and Federal Agencies and their Contractors. We are sensitive to the unique requirements each agency maintains in the process of conducting business. We adapt our policies, processes and procedures to meet those requirements. We hold WBE, UDBE, DBE and SBE certifications with the CPUC and SBE, MBE certifications through Metro.

A&I Reprographics also enjoys successful business relationships with many of Southern California's top Architectural, Engineering and Contracting firms. Our staff is highly skilled at organizing and managing construction documents. Regardless of size; home remodels to corporate campuses, sidewalks to interstate freeways, we are experienced and stand poised to work for you. We'd be delighted to hear from you.
